

SONORA ATHLETICS

August, 2008

Dear Parents:

The Fullerton Joint Union High School District (FJUHSD) has established a transportation fee for those student athletes who use the bus to travel to and from athletic activities. The fee is necessary in order to continue transportation services for FJUHSD athletic events. In response to the fiscal crisis in the State, the District Budget Study Committee studied many cost-saving strategies and ideas to assist the District in maintaining a balanced budget. Charging for transportation of athletes for athletic events became a formal recommendation to the Board of Trustees in the spring of 2008, which the Board did approve.

Approximately 70 percent of the total cost of transportation for a given activity is divided between the school-site budget and the students participating in sports. The remaining 30 percent of the transportation expense will encroach on the District's general funds. The individual fee for a sport is determined by dividing the student portion of the cost by the number of participants in the activity. This calculation results in the amount each student is to pay for transportation. In preparing the fee structure, a study of neighboring districts showed that FJUHSD fees are less than those in the other districts.

Before the first away contest, each Athlete will be required to pay the transportation fee to get on the bus. This bus fee is the same for all Freeway League Schools; the fee will be collected from each athlete in a program as a group through the activities office. Below is a chart that lists the amount due and date to be collected. **Make checks payable to Sonora High School.**
